Dear Ms. Sehgal,

I'm writing to apply for the Java Developer Intern position at Devstringx. As a Computer Science undergraduate with Java and full-stack development skills, I'm eager to contribute to your team and gain real-world experience.

I have hands-on experience with Java, Python, C, C++, PHP, HTML, CSS, JavaScript, NodeJS, and Hibernate. I'm also familiar with MySQL, MongoDB, and tools like NetBeans, IntelliJ IDEA, Android Studio, and Figma.

I'm drawn to Devstringx for its focus on quality software and learning culture. I'm enthusiastic about working on real projects and learning from experienced mentors. Thank you for considering my application. I look forward to the opportunity to discuss how I can support your team.

Sincerely,
Ashfaaq Rifath
